MB89485
Single-Chip MCU Data Release Form (AH)
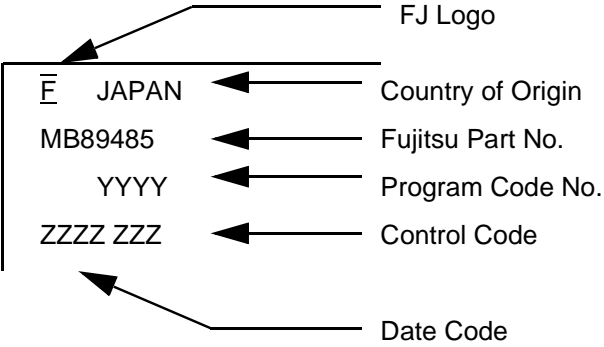

Customer Name

Customer Contact

Customer Part No.

Fujitsu Part No.

MB89485 - _____

Application

_____

- ☐ Automobile Engine Use   (0)
- ☐ Automobile Non-Engine Use   (1)
- ☐ Non-Automobile Use   (2)

History

- ☐ New Release
- ☐ Update of Previous:

    MB89485 - _____

Mask Option Item	Contents of Selection	Notes
Package Type	☐ (0) SH-DIP-64 ☐ (1) LQFP-64	
Mask ROM Data		

Mask ROM Data

	MCU Address	Media Address	Program Data	ROL Address (Fujitsu Internal use)	
Start	C 0 0 0 H	____ H	__ H	4 0 0 0 H	__ H
Arbitrary		____ H	__ H	____ H	__ H
End	F F F F H	____ H	__ H	7 F F F H	__ H

Fill out the above blanks in hexadecimal for our verification. Write the program data from Start address to End address.

- Satellite File Name: AHxxxx
(Internal use Only for FMI/ FMG/FMAP)
xxxx is ROM code No. assigned by Fujitsu.

Mask Option Item	Contents of Selection	Notes
Main Clock Oscillation Type (OSC)	☐ (1) $2^{14}/f_C$ ☐ (2) $2^{17}/f_C$ ☐ (3) $2^{18}/f_C$ ☐ Crystal Resonator ☐ Ceramic Resonator ☐ FAR Resonator	
Operation Frequency	Clock: _____ MHz	The frequency written here is regarded as the guaranteed operating frequency.
Stop Mode	☐ (0) No ☐ (1) Yes	
Booster circuit (KSV)	☐ (0) No ☐ (1) Yes	
Voltage Stabilization Time (POR)	☐ (0) No ☐ (1) Yes ($2^{17}/f_C$)	

Marking Form

☐ Standard (See below:)   (0)

☐ Special   (1)

*   Engineering samples have Standard marking with "ES" mark.

Fujitsu Part No.

FJ Logo

$\overline{F}$ JAPAN ← Country of Origin

MB89485 ← Fujitsu Part No.

YYYY ← Program Code No.

ZZZZ ZZZ ← Control Code

Date Code

-   The height of Fujitsu Logo is 2.0mm.
-   The other character except FJ logo is the gothic font and the height is the 1.2mm.
-   The Control and Date Codes are the alphanumeric characters.
-   The Program Code No. is assigned by Fujitsu.

Customer Spec No.

(Operating temperature., Operating supply voltage, Supply current, etc.)

Electrical Spec

☐ Standard

☐ Special

Mechanical Spec

☐ Standard

☐ Special

Quality/Reliability

(Burn-in, Screening. etc.)

☐ Standard

☐ Special

Other Special Requirements

(Special marking proposal form etc.)

Single-Chip MCU Data Release Form (F^{2}MC-8L)

Sample Requirement

Engineering Samples (ES)

    Free Engineering Samples:
(Included in mask charge)

    Quantity   :_____Units

    Req'd FLT Date :___/___/___
(MM/DD/YY)

Charged Engineering Sample
(Additional ES)

    Quantity   :_____Units

    Req'd FLT Date :___/___/___
(MM/DD/YY)
    Samples Price   _____Unit

    Package Type: ☐ Ceramic
                    ☐ Plastic

    ☐ Expected ☐ Committed (P/O:)

Charged Commercial Samples (CS)

    Quantity   :_____Units

    Req'd FLT Date :___/___/___
(MM/DD/YY)
    Samples Price   _____Unit

    ☐ Expected ☐ Committed (P/O:)

Order Type

☐ Non-Risk Order *1
    (ROM verification is skipped)

☐ Risk Order *1
    (ES confirmation is skipped.)

Notes:
*1 Refer to the next Page

Application

Sales Price:
    (Including initial Ten Units of Engineering Samples)

☐ Committed

☐ Issued (P/O:)

Production Info.

Production Start: (MM/DD/YY)	Production End: (MM/DD/YY)
___/___/___ to	___/___/___

Initial Production:
_____Units / Month   ☐ Expected ☐ Committed

Production Rate:
_____Units / Month   ☐ Expected: ☐ Committed

Total Production:
_____Units / Life   ☐ Expected: ☐ Committed
(_____Years)

Originated by

Signature: _____

Title   : _____

Date   : _____

Production Info.

FMI/FMG/FMAP/FDI: Kawasaki:

PMM: _____   _____

PME: _____   Kawasaki:

Scheduler: _____   _____

Fujitsu declares that Fujitsu not disclose / sell your software and its mask ROM to a third party. However, even if its software from a third party may be completely or nearly the same with yours, Fujitsu doesn't assume any responsibility. In that case, whenever you find the software from a concerned third party infringe upon your right, Fujitsu concludes you have to settle an infringement problem with a concerned third party.

Single-Chip MCU Data Release Form

Notice

1.PROGRAM ROM DATA

- The data format should be Intel HEX (except Intel extended hex), Motorola S1, or Motorola S2 formats. (Recommended Motorola S1/S2). And it should not have offset address.
- The diskette save in the program ROM data is DOS 3.5 inch diskette (1.44MB). Or, electrical readable file (plain text) sending through e-mail.
- The program ROM data should be filled in by the customer for all addresses from the START ADDRESS to the END ADDRESS. If the Physical Program ROM contains unused addresses after the END AD- DRESS, the remainder of the unused addresses will be filled by default to FFH by Fujitsu
- Fujitsu will sending back confirmation data in Motorola format which has processed and converted for Fujitsu's fabrication use. You may need simple offset adjustment requires at your confirmation.

2.SAMPLES

- ES (Engineering Sample) is guaranteed only for functional/electrical characteristics. Therefore, ES should not be used for reliability test. Also, marking form for ES is Fujitsu STANDARD unless otherwise requested
- CS (Commercial Sample) is guaranteed for reliability equivalent to that of production parts.

3.ORDER TYPE

- Non-Risk Order   :FJ makes ES after data release and starts production after ROM verification.
- Risk Order   :FJ starts production after ROM code confirmation. (ES confirmation is skipped.

4.CHANGING AFTER DATA RELEASE

If change required of released data, we will remake mask from the beginning. In such case, another mask charge and corrected DATA RELEASE FORM is necessary.

5.SOFTWARE AND ROM RIGHT

Fujitsu declares that Fujitsu not disclose / sell your software and its mask ROM to a third party. However, even if its software from a third party may be completely or nearly the same with yours, Fujitsu doesn't assume any responsibility. In that case, whenever you find the software from a concerned third party infringe upon your right, Fujitsu concludes you have to settle an infringement problem with a concerned third party.
