### FEATURES

- Low Forward Voltage
- Fast Recovery Times
- Economical Convenient TO-3P Package
- Low Thermal Resistance
- Mechanically Rugged
- PIV up to 150V

### DESCRIPTION

The UES4505C Series, in the economical, convenient TO-3P package, is specifically designed for operation in power switching circuits to frequencies in excess of 100kHz. The very low forward voltage and very fast recovery time make them particularly suited for switching type power supplies.
