# **Power MOSFET**

# 25 V, 49 A, Single N-Channel, DPAK/IPAK

#### **Features**

- Trench Technology
- Low R<sub>DS(on)</sub> to Minimize Conduction Losses
- Low Capacitance to Minimize Driver Losses
- Optimized Gate Charge to Minimize Switching Losses
- These are Pb-Free Devices

# **Applications**

- VCORE Applications
- DC-DC Converters
- High Side Switching

# MAXIMUM RATINGS (T<sub>J</sub> = 25°C unless otherwise stated)

| Para                                                                                                                                                      | ameter                                        |                       | Symbol               | Value | Unit |
