19" 1RU Rack-Mountable Chassis

The Optiva™ OT-CC-4-1U frame is a ruggedized housing unit that accepts any Optiva™ fiber optic insert card. The mounting ears enable easy mounting into a standard 19" rack. Card loading, as well as electrical and optical connections, are accessed from back. LEDs for status and alert indication are provided on the front of the chassis. The regulated switching power supply has short circuit protection and an input operating voltage of 90-264 VAC.
