HG 350 ESD Precision Hot Air Tool

The HG 350 ESD is the ultimate precision hot air tool.

This sleek, ergonomically optimized tool incorporates cutting edge STEINEL technology to meet the exacting needs of even the most sensitive applications. Innovative features include a bright LED light to illuminate the work area while highly focused hot air ensures an accurate result.

STEINEL...for world-class performance, guaranteed.

Introducing STEINEL Precision Hot Air Tool

STEINEL Precision Hot Air Tool

HG 350 ESD

STEINEL Precision Hot Air Tool

HG 350 ESD

LED light provides bright illumination of the work area and also serves as a convenient "on" indicator

Integral security hanger for safety and convenience

Optimised weight balance ensures fatigue-free long term operation

Molded safety rests

The ergonomically shaped soft grip handle ensures comfortable handling

HG 350 ESD

Precise Output

- Targeted 3.5 CFM airflow
- 750 °F Temperature (930 °F with included ¼" / 7mm Reducer)
- LED light illuminates work area

Ergonomically Optimised

- Sleek, balanced design for comfortable long-term use
- Compact, lightweight construction
- Built-in security hanger for overhead suspension

Integrated Safety

- ESD safe
- LED serves as a convenient "on" indicator
- Safety rests help prevent surface contact with hot nozzle

Integrated LED light

Targeted illumination for enhanced precision

Ideal for de-soldering electronic components

Variety of reflectors available for specific shrink tube and solder sleeve applications

Accessories

| | | | | |
|--------------------|--------------------------------------|------------------------------------|------------------------------------|------------------------------------|
| Item No. 07730 | Item No. 07735 | Item No. 07765 | Item No. 07755 | Item No. 07745 |
| ¼" / 7mm Reducer | Reducer with Reflector Guard | 1 ½" / 40mm Reflector | ¾" / 10mm Reflector | Precision Reflector |
| Included with tool | For desoldering electronic compounds | For shrink tubing & solder sleeves | For shrink tubing & solder sleeves | For shrink tubing & solder sleeves |

Made in E.U. ISO 9001:2000

Specifications

| | |
|------------------------|-------------------------------------------------------------|
| Item No. | 34735 |
| Dimensions (h x w x d) | 9 1/2" x 2 1/2" x 7" |
| Weight | Approx. 660 g |
| Voltage | 120 VAC / 60 Hz |
| Output | 300 W |
| Temperature | 750 °F without nozzle 930 °F with 7mm Reducer (included) |
| Airflow rate | 3.5 CFM |
| Power cord | Industrial grade rubber, length: 6 ft. |
