

.375" PCB Low Profile Barrier Terminal Strip

Description

The series 71 PCB terminal strip is the low profile alternative to our popular series 72. The .375" terminal strip is only .56" high yet is rated for 20 Amps.

The terminal block can be supplied with a wide variety of terminal styles and lengths, screw options and hardware.

Made in the USA, all Beau terminal blocks embody the highest quality standards in the industry-using the finest materials and world class manufacturing processes. They meet or exceed all applicable industry standards.

Features

- **Low profile** and rated for 20 Amps. The .56" high series 71 can handle 12 AWG wire and a full 20 Amps without the additional expense of wire clamp screws.
- **Molded to exact length**, with no ugly saw cuts, Beau terminal strips make your products look more professional. The terminal block is the one component that your customer is sure to see.
- **Wide variety of options.** Our broad range of screw, terminal, hardware and mounting options allows us to save you assembly costs and improve interconnect performance.
