Category 5 110 Style Keystone Jacks - Two Termination Styles To Choose From

Two different style Keystone jacks utilize a non-keyed 8 position RJ45 Jack with parallel or perpendicular 110 style termination points on the back. The jacks meet all UL and ETL specifications for Category 5 performance and have 50 microinches of gold on the mating surfaces. Units fit into all keystone wall plates and rack panels listed below. 110 connections accept 22-26 AWG solid conductors. Colors are black and ivory and be sure to specify EIA568A or EIA568B color coding. Other colors are available through special ordering. Ask for details. **Note: EIA568A is not available in RJ110 series.**

UJ110C5A-B	Keystone 110-RJ45 Jack, Cat. 5-568A	Black	4.95	4.36	3.86
UJ110C5A-I	Keystone 110-RJ45 Jack, Cat. 5-568A	Ivory	4.95	4.36	3.86
UJ110C5B-B	Keystone 110-RJ45 Jack, Cat. 5-568B	Black	4.95	4.36	3.81
UJ110C5B-I	Keystone 110-RJ45 Jack, Cat. 5-568B	Ivory	4.95	4.36	3.81
RJ110C5B-B	Keystone 110-RJ45 Jack, Cat. 5-568B	Black	5.95	5.24	4.64
RJ110C5B-I	Keystone 110-RJ45 Jack, Cat. 5-568B	Ivory	5.95	5.24	4.64

Category 3 110 Style RJ12 Keystone Jack - USOC Wired For Voice Applications

The same mechanics as the UJ110 series jacks above except this jack uses a Category 3 rated, USOC wired RJ12 for voice applications. Perpendicular 110 entry on the rear. Ivory and black colors available.

UJ110C3U-B	Keystone 110-RJ45 Jack, Cat. 3-USOC	Black	3.95	3.48	3.08
UJ110C3U-I	Keystone 110-RJ45 Jack, Cat. 3-USOC	Ivory	3.95	3.48	3.08

I.D.C. Style Keystone Jacks - Allow Mixing of Jack Types on a Single Wall Plate or Panel

These insulation displacement keystone connectors allow termination of solid conductors without stripping wires (AWG24-26). Simply fan wires across the color coded I.D.C. grooves and press the retainer to connect all wires simultaneously. All four Keystone jacks have the same exterior size and may be intermixed to fit in any of the wall plates or racks below by pushing into place. These Keystone jacks are for telephone and low data rate use only. For high speed applications see our Category 5 Jacks above as well as on pages D18 and D19.

EC1107B-4C	Keystone IDC Jack, RJ11 (6x4)	Black	4.75	4.18	3.71
EC1107B-6C	Keystone IDC Jack, RJ12 (6x6)	Black	4.95	4.36	3.86
EC1107B-6MMJ	Keystone IDC Jack, MMJ (6x6)	Black	5.25	4.62	4.10
EC1107B-8C	Keystone IDC Jack, RJ45 (8x8)	Black	5.65	4.97	4.41
EC1107B-8CK	Keystone IDC Jack, RJ45 (8x8) Keyed	Black	5.65	4.97	4.41

Keystone Surface Mount - An Excellent Way to Wire Telco or Data Line Circuits

A neat surface mount box to have handy for those emergencies. Will accept any of the EC series I.D.C. Keystone Jacks listed above. Simply wire the Keystone Jack, then snap into place. The cover snaps on too! It's easy to take apart if necessary. Single screw mounting or use double sided tape. RJ12 (6x6) keystone jack included.

Keystone Wall Plates - Allow Flush Mounting of Keystone Jacks

Ivory colored plastic wall plates accept up 1,2,3,4 or 6 Keystone Jacks. This style plate keeps a flush appearance once the jacks are inserted into the plates. Included are top and bottom station labels which allow easy station identification and numbered icons that distinguish ports from each other. Other colored plates available by special order only.
