

AMPHENOL D-SUBMINIATURE MASS-TERMINATED FLAT RIBBON CABLE IDC D-SUB

841 SERIES

The Amphenol 841 series connectors are suitable for compact requirements of modern peripheral equipment. Special contact design allows usage of standard .050" (1.27 mm) flat cable while maintaining the standard contact centers of .054" (1.37 mm). The one-piece universal hood provides three locking options: plastic latch for one-hand operation and quick disconnect, screw locking and metal-spring latch locking. The hood accepts both straight and right angle cable entry for standard or jacketed cable.

BENEFITS:

- Compatible with MIL-C-24308 and IEC proposal 48 B (CO) 118
- Mates with other D-sub connectors
- Mass terminates to flat cable on .050" centers
- RS-232 and RS-449 standard
- Strain relief
